- ▶ In jurisdictions that offer only one plan to employees, over three-quarters (75.9%) (564 of 743 plans) have PPOs.
- ▶ The frequency of high deductible health plans (HDHPs) has increased since the 2013 survey. HDHPs now make up 25.6% of plans statewide, compared to 21.0% in 2013. School districts remain the least likely to offer HDHPs to employees in 2014.
- ▶ Self-funded plans have increased 3.6% since last year. Townships remain the least likely of all jurisdictions to be self-funded, as many townships have few employees. Schools and Counties are the most likely to be self-funded as a large portion are members of consortiums.
